The Minear Family*

(MINEAR, MENEAR, MYNEER, MANEAR, MINEER)

1590312

The following pages contain so far as possible to obtain them the names of the Minear descendants in America. Previous to 1755 John Minear came from Europe to Pennsylvania. In his pension application for services in the Revolutionary War, David Minear (XVII 1) states that he (David) was born in Bucks County, Pennsylvania, in 1755. He states that John Minear was his father.

It was my hope to give short biographies of more of the older generations, but the information has been so meagre as to discourage the attempt. Some of the information given below is traditional, but in most cases the evidence seems to justify the statements.

In Hennings Statutes of Virginia, September, 1758, a John Minear was allowed pay for services as militia. It is not certain that this is John of Pennsylvania. John Minear is next heard of in Hampshire County (West) Virginia. After living there some years he went to Randolph (now Tucker) County, West Virginia. He seems to have been the leader of the second group that came from Hampshire to (now) Tucker, and settled near the present site of St. George. (The place was formerly called Minear's Mill.) In 1781 he made a trip to Clarksburg, (West) Virginia to meet the Virginia land commissioners and to get the land titles perfected, and as he returned was killed by Indians near the present site of Philippi, West Virginia. His body was buried in a root hole and later moved to a grave nearby. The grave is on the Frank Norris farm about seven hundred yards above the B. & O. R. R. bridge at Berryburg Junction and about thirty yards from the bank of the river.

In Dyer's Index to Virginia land grants several Minear entries are found. Hampshire County: John MEENIER, 1782, 153 acres adjoining his land; 1794, 59 acres on Potomac. Randolph County: David Minear, 1792, 47 acres adjoining his land, 200 acres on Clover; 1800, 42 acres East side Cheat. Harrison County: John Minear, 1786, 369 acres on Tygarts River; Adam Minear, 1801, 312 acres Big Lick Run. Monongalia County: Jonathan Minear, 1784, 200 acres on Cheat River; David Minear, 1784 and 1786, 173 acres on Clay Lick Run; William Minear, 1804, 25 acres adjoining R. Moody; Phillip Minear, 1850, 200 acres.

In the records of Harrison County, Deed Book 4, page 96 (March 12, 1798), and Book 5, page 80 (April 13, 1801), are found deeds from David Minear, Sarah Minear, Catherine (Minear) Haddix, Wm. Haddix, Phillip Minear, Mary (Minear) Saylor, John Saylor, Elizabeth (Minear) Washburn, Samuel Minear and possibly others for the land mentioned above that had been patented to John Minear, Sr., (369 acres in 1786). This land had descended to heirs of John Minear and the share for his son, John, Jr., (who had disappeared and was legally dead) was being deeded to Adam Minear, son of John, Sr.

In Randolph County, West Virginia, several more entries are recorded. Deed Book 1, page 65, Phillip Minear to Wm. Haddix and Catherine Haddix, July 26, 1790, 200 acres on branch of the Monongahela River. Book 1, page 540, to Phillip and Winnie Minear, March 1, 1798, 50 acres mouth of Minear's Run. Book 1, Page 561, Sept. 7, 1797, Sarah Minear, William and Catherine Haddix, John and Mary Saylor, Phillip and Winnie Minear, "heirs at law of John Minear supposed to be deceased", deeded David Minear 198 acres originally granted him April 20, 1784, opposite Clover Run, including John Minear settlement made in 1776.

David Minear (XVII 1), son of John Minear, was born in Bucks County, Pennsylvania, in 1775. In his pension application on file in Washington, D. C., he states many things about his life. In 1779 he enlisted under Captain Wm. Haymond of Morgantown, (West) Virginia, was guarding the fort and ranging; in spring of 1780 he, with his brother Phillip, went to Kentucky to view and explore the country; when he reached the present site of Louisville he was drafted and went with General Clark up the Ohio to Licking Creek; fought there with Indians; went to Chillicothe where they destroyed the corn of the Indians; then to Piqua where in a fight fifteen Indians were killed; the whites lost several men; they buried them in a house and burned the house to destroy place of burial, but the Indians claimed they were watching and afterwards dug the bodies up and scalped them;he then came home and later was employed in guarding the vicinity of Morgantown; in 1781 the Indians killed his father, John Minear; David then ranged from Minear's Fort to Wilson's Fort; in April, 1783, the Indians killed his brother Jonathan and nailed his skull to a tree. David Minear died Oct. 20, 1834; he had been granted pension number 23,565 in February, 1834. He is buried in St. George, West Virginia, near the bank of Mill Run. (This was named because of the location of John Minear's mill on it).

Phillip Minear (XVII 2) was born 1763; went to Kentucky with his brother David; served with General Clark; moved to Ohio; married Winnie .....; died 1846; buried in Ross County, Ohio.

Adam Minear (XVII 3) married Elizabeth..... Cobb; lived in Barbour County, West Virginia. In 1792 the Virginia legislature granted him permission to operate a ferry on the Tygarts Valley River.

John Minear (XVII 4) disappeared and after the required time had elapsed was declared legally dead.

Jonathan Minear (XVII 5) had a farm below St. George; was killed in 1783 by Indians; is buried in St. George below the old courthouse.

Sarah Minear (XVII 6) married Benjamin Marsh. They lived below St. George, but little is known of the descendants.

Katherine Minear (XVII 7) married Wm. Haddix (or Haddox). There are numerous descendants, but little data is known of most of them.

Samuel Minear (XVII 11) was evidently the youngest, for the Harrison County records mention that David Minear was appointed his guardian. He married Charity Gough; moved to Athens County, Ohio, where he is buried.

Of the other children of John Minear little or nothing is known. Elizabeth (XVII 9) married Phillip Washburn. Mary Ann (XVII 10) married John Saylor (or Sailor). (There is a tradition that he started up Saylor Run below St. George and was never heard of again.) Another daughter married Peter Buckalew.

———o———

It has been comparatively easy to follow most of the descendants of John Minear who formerly lived in (now) Tucker County, but there are two other families that it has as yet been impossible to connect with this branch. In Preston County, West Virginia, are found numerous Minear descendants. It is the tradition of their family that they are descended from John Minear, but so far it has been impossible to get accurate data on the subject. (They spell the name MENEAR). In this publication they have been given a different division because of this uncertainty. They will be found on page 115.

The earliest one of this family seems to be William MENEAR. He had several children and the birth date of only one, Mary (B 5) is known. It is given as 1785. The grandchildren of this William MENEAR have birth dates beginning about 1800.

This bears out the date given for the birth of Mary (B 5). The earliest known date of the birth of any of John Minear's children was 1755. Unless there was another child of John Minear that has not been listed it seems impossible that the Preston Menears are the same branch. In this connection it may be stated that in the records of Hampshire County (West) Virginia is found an Abraham MANEOR at the same time that John Minear was there. The spelling is often inaccurate and it may be that some of the families were descended from him. Mr. Enoch C. Tetrich of Farmington, West Virginia, has done much on this problem and may solve it.

There is still another small group that are not definitely placed. They are found on page 126. A letter from Mrs. Ida Hollingsworth, Eldora, Iowa, states that her great grandfather was William Minear; that he was born in 1793 and died in 1872; that he was the father of six boys by his first wife. No other information has been obtained. They are entered as a separate branch until definitely connected.

———o———

John Minear is arbitrarily indicated by the Roman numeral XVI; his children by XVII; his grand children by XVIII and so on. Each generation is thus given its proper Roman numeral, showing at a glance how far removed it is from John Minear. The order of the children in each generation is shown by figures.

For those unaccustomed to follow this system of classification it will be easy if they will remember to turn towards the back of the book for a name repeated as a PARENT, while they will turn towards the front for the name of a parent as a CHILD. Thus you will find Enoch Minear (XVIII 4) on page 7, as the SON of David Minear (XVII 1), and on page 9 you will find Enoch Minear (XVIII 4) as a PARENT, and on page 17 you will find his children as PARENTS. Where the name is used as a child it is in small letters, but when used as a parent it is in CAPITALS.

Where * is found before a name it indicates that information has been furnished that there are no descendants; where ** precedes a name it indicates that nothing further whatever is known about the history.

In a few cases names will be found with different spellings in different places. This means that the name was given in both forms and since it was impossible to tell which was the proper one, both were used.

In many cases dates are not given or only partly given. In such instances there are different reasons: occasionally the dates were not known and in others the information was refused, the names being given by those who were not conversant with the dates. Where dates are not given it is likely that the information is not as accurate as in other cases. To a person who has not tried to do such work as this the difficulties can hardly be imagined.

———o———

In the numbers following names it frequently occurs that several names have the same figures with an additional one following, as in (XIX 99) on page 12. This was caused by information coming after the first numbering had been made. This also makes the total names of a generation differ from the number assigned the last name. In the next paragraph are the final totals at the time of printing, but this constantly changes.

———o———

It will be a surprise to many to know the total number in the different generations. JOHN MINEAR was born about 1726. In 1926, approximately two hundred

years later, this record shows the following number of his descendants, though it is very likely that not over two-thirds have been listed:

Children	11
Grand Children	32
Great Grand Children	159
Great-great Grand Children	557
Great-great-great Grand Children	1282
Great-great-great-great Grand Children	1223
Great-great-great-great-great Grand Children	179
Great-great-great-great-great-great Grand Children	1
Total	3444

In addition to these there are nearly 500 in the other branches not yet proven to be connected with this list.

———o———

Any additional information as to the early history of the Minears will be gladly received. Especially is this true of generations XVII and XVIII. It is hoped that all to whom this may come will take an active interest in correcting any errors and in making the record more complete. All corrections sent in will be carefully noted and will be included in any supplementary edition and in this edition when filed with libraries.

If a person had the time to search the records of Harrison, Randolph, Hampshire and Monongalia Counties, West Virginia, and Richmond, Virginia, many of the missing items could be filled and much valuable and interesting information could be found.

The present data is in the best condition possible with the time at my command. It is put forth in the hope that it may be of interest to many and of benefit to some. After families are separated by years and miles communication between them is often lost. It is my hope that this may lead to a closer relationship between them.

Special Request

As stated in the foreword it is earnestly desired to make this record of the Minears as complete as possible. If sufficient additional material or corrections are secured a supplementary pamphlet will be issued.. Accordingly a special request is made for the following data.

Any information concerning JOHN MINEAR; place of birth, date of birth, place of residence, how long in each place, where he married, whom he married, when he came to America, where he landed, by what persons accompanied to America, names of his children, birth dates of children, in fact any item whatever relating even remotely to him. Sometimes such information has been handed down in branches of the family.

Any information concerning the children of John Minear; where-born, where married, to whom married, different places of residence, occupation, names of children, birth dates of children, place of burial, and any other information.

Any corrections or additions as to names, dates and places, in the printed matter. There are many .....'s where the information is lacking. In such a mass of data (almost 4000 names) many errors will occur, for there is almost no way to avoid it. An accurate record will be kept of all corrections.

For convenience in following the history of any particular person the following page numbers are printed. Find the name of the person and check the pages before and after where the parents or children of this person are found. Then it will be easy to trace again the record when desired.
